Gu	letes who sustain a suspected concussion should be managed according to the <i>Canadian ideline on Concussion in Sport</i> . Accordingly, I have personally completed a Medical essment on this patient.	
Res	ults of Medical Assessment	
	This patient has not been diagnosed with a concussion and can resume full participation in school, work, and sport activities without restriction.	
	This patient has not been diagnosed with a concussion, but the assessment led to the following diagnosis and recommendations:	
	This patient has been diagnosed with a concussion.	
	The goal of concussion management is to allow complete recovery of the patient's concussion by promoting a safe and gradual return to school, work and sport activities. The patient has been instructed to avoid activities that could potentially place them at risk of another concussion or head injury until they have been provided with a <i>Medical Clearance Letter</i> from a medical doctor or nurse practitioner in accordance with the <i>Canadian Guideline on Concussion in Sport</i> .
